Rock Series
Fax: 0866533271

03rd October 2012

Chanine and team at the Rock series.

We have used the Rock Series at Highveld Park High School in Secunda with great success.
Our learners have shown a remarkable improvement in English first language as well as Math.

In English the grade 8 learners have improved over all with 15.8% from the first Quarter in 2012 to the second Quarter.

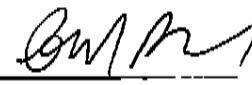

Mathematics showed an over all improvement of 13.2% from the first to the second Quarter in 2012.

Chanine and her team were extremely helpful and installing the program on all the computers in the reading lab.

Highveld Park High School can recommend the Rock series. The positive feedback that we received from parents and learners speaks for it self.

Kind Regards
Mrs A .Strauss [Mathematics teacher]
